ADDRESSED TO WORKING GIRLS

Miss Barrows Tells How Mrs. Pink-ham's Advice Helps Working Girls.

Girls who work are particularly susceptible to fe-m a le disorders, especially those to stand on their feet from morn-ing until night in

well, whether it rains or shines, she must get to her place of employment, perform the duties exacted of hersmile and be agreeable.

Among this class the symptoms of female diseases are early manifest by weak and aching backs, pain in the lower limbs and lower part of the stomach. In consequence of frequent wetting of the feet, periods become painful and irregular, and frequently there are faint and dizzy spells, with loss of appetite, until life is a burden. All these symptoms point to a de-All these symptoms point to a de-rangement of the female organism which can be easily and promptly cured by Lydia E. Pinkham's Vegeta-

Miss Abby F. Barrows, Nelsonville. Athens Co., Ohio, tells what this great medicine did for her. She writes:

It is to such girls that Mrs. Pink-ham holds out a helping hand and extends a cordial invitation to correspond with her. She is daughter-in-law Lydia E. Pinkham and for twenty-five years has been advising sick women free of charge. Her long record of success in treating woman's ills makes her letters of advice of untold value to every ailing working girl. Address, Mrs. Pinkham, Lynn, Mass.

DAY NOT MENTIONED.

Polish Deputies Begin Campaign for Automony - Government Preparing for Possible May Day Disorders -Reply to Speech From Throne.

St. Petersburg, May 15 .- Another of the incipient radical revolts with which it is apparent the Constitutional Democratic majority must continually contend, broke out in the lower house of the parliament when Labor members introduced resolutions for the immediate submission to Emperor Nicholas by telegraph of a demand that amnesty be proclaimed at once.

In view of the May day demonstrations and the arrests that are expected the Constitutional Democratic leaders were scarcely able to stave off so precipitate a more, which would undo all the results of their moderation, by sending their best orators into the fray when Professor Kovalevsky, a free lance member, proposed that instead of telegraphing the house send President Mouromtseff to Peterhof with the request for

immediate amnesty. This threatened to sweep the house, but the Constitutional Democrats, by sharp politics, managed to sidetrack a commission which, according to hours, and then were able to defeat landing of hostile forces.

After this incident the lower house adjourned. May day was not mentioned, but abandonment of the ses sion was dictated out of respect for the Socialist holiday as well as with the desire to give the commission adequate time to draft the reply to the speech from the throne.

The Polish deputies began their campaign for autonomy by introducing a resolution for the inclusion of a paragraph on that subject in the reply to the speech from the throne, pointing out that the fundamental law, which establishes the special position of Finland, does not mention the relations of Poland to the empire, and the government's attitude in regarding the absorption of Poland as an accomplished fact is thereby manifested. The house turned over the resolution to a commission without recommendation.

Though the Socialists and workmen of St. Petersburg have proclaimed their intention of celebrating May day peaceably, the government has made preparations on a large scale to meet possible disorders. Patrols are on many streets in the industrial quar-

Don't Poison Baby.

CORTY YEARS AGO almost every mother thought her child must have PAREGORIC or laudanum to make it sleep. These drugs will produce sleep, and A FEW DROPS TOO MANY will produce the SLEEP FROM WHICH THERE IS NO WAKING. Many are the children who have been killed or whose health has been ruined for life by paregoric, laudanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody without labelling them "poison." The definition of "narcotic" is: "A medicine which relieves pain and produces sleep, but which in poisonous doses produces stupor, coma, convulsions and death." The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrups," etc. You should not permit any medicine to be given to your children without you or your physician know of what it is composed.
